

To deliver high-quality products or services in an efficient, effective, and consistent manner, organizations must pursue operational excellence. Operational excellence is a dynamic and holistic approach that encompasses various aspects of organizational functioning, including:

- Delivering value to customers
- Identifying and mitigating risks
- Adhering to regulatory compliance requirements
- Streamlining processes and optimizing resources
- Fostering a culture of continuous improvement, innovation, and collaboration
- Applying best practices and standards

CARE2RISE is a simple systems perspective for achieving operational excellence. It is based on Baldrige Excellence Framework, and U.S. Coast Guard Operational Risk Management and Performance Improvement Guidelines.

This CARE2RISE Workshop prepares emerging leaders for greater responsibility by enhancing their understanding and skills, through application-based learning, highly interactive activities, and authentic self-reflection, of:

- Operational planning and execution
- Adherence to values and standards
- Workforce empowerment
- Continuous improvement
